Michael was such a pleasure to work with and did an amazing job! I tasked him with a true challenge making my website, between the premise of my site and the new platform he needed to learn to use. Michael's work has been exceptional and well worth the money.

Michael provided some excellent advice on a particular area of our social media marketing. This advice has allowed us to advance our marketing by making a few subtle but necessary changes and to date, the results have been verifiably improved. All communications were highly professional. We had a large-scale project that we needed assistance with on a VERY short timelines. Michael was instrumental in helping us with advising, conceptualizing, and developing Top-Notch presentations and material that we will leverage to secure business.

Michael has the business, finance, and graphic design capabilities to take something conceptual and develop into clear, concise material that clearly articulates the business model and objectives we want to achieve. We will DEFINITELY utilize Michael again and highly recommend him to help assist with any of your business needs!! Thank you, Michael for going ABOVE and BEYOND!!

Michael is an extremely dedicated and thorough business consultant. He walked me through every step business creation process and in the end crafted a wonderful business plan. The plan itself was detailed, well organized, and an impressive piece to present to banks/investors. Although I decided to delay opening a business due to my own financial concerns, I am very pleased with the work that Michael did for me. I always felt that I could ask him any questions without judgment and he often went above and beyond.

If you are looking to have someone help you with business, I recommend hiring Mr. Collischan. His prices are fair and his work reflects his passion for his field.
